The screenshot displays the 'Device Types' management interface in the IBM Watson IoT Platform. The page header includes the platform name and user information. The main content area features a table of defined device types. The table has five columns: Name, Description, Number of Devices, Class ID, and Date Added. A single entry, 'Isotsensors', is shown with 1 device. Below the table, there is a pagination control indicating '1 of 1 page'. The left sidebar contains navigation icons for various platform functions. The top navigation bar includes tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'.
